

How to look after your Cotswold Classic mattress

- (i) Once delivered it is a good idea to leave your mattress to air and rest for several hours. Allowing additional time to air when changing the bedding is also recommended.
- (i) For designs which can be used on both sides we recommend turning your mattress once every two weeks for the first few months, and monthly thereafter.
- (i) Every six months, we recommend rotating your mattress from top to bottom.
- (i) Please never try to fold or bend your mattress as this will cause damage.
- (i) To clean, please only use a soft brush as hoovering, however gentle, will damage it.
- (i) The use of a mattress protector will help protect your mattress.
